

NOTICE OF INTENT TO SOLE SOURCE

Published: May 9, 2024

Response Due By: 5:00p.m., May 24, 2024

Intercity Transit (ICT), a municipal corporation that provides public transportation in the Olympia, Washington, area, is seeking to acquire extended warranty services for our existing vehicle security camera system, which is expiring soon and moving forward to maintain, add, enhance, upgrade, etc. or existing camera solution.

ICT has an extensive embedded fleet of cameras and its accompanying software solution provided by Transit Solution, LLC. (TSI). The cameras and solution have proven very successful for ICT and the cameras serve in a critical capacity and are vital to our agency's safety and security. We have also built training, guidance, a stable supply chain, and other protocols around this solution. As such, ICT is maintaining its fleet of cameras and solution and plans to extend additional warranty coverage periods with TSI which we believe is the only firm capable of providing its proprietary solution and warranty, but also and as needed maintain, add, enhance, upgrade, etc. our existing camera solution.

However, ICT is conducting a good faith validation that there are no other firms capable of or interested in collectively and inclusively providing the same hardware, hardware warranty, Nexview software warranty, Nexview Pro solution, and maintaining, adding enhancing, upgrading the cameras a software solution and other services. Transit reserves the right to purchase directly from TSI should no equivalent collective and inclusive solution be discovered at Transit's sole discretion.

Transit is seeking a letter of interest from solution providers who offer an equivalent extended warranty solution that at a minimum provides the features and functionality outlined above.

Letter of interest, along with appropriate supporting literature about the solution considered equal, is to be submitted electronically to the attention of Jeff Peterson at jpeterson@intercitytransit.com for consideration by **5:00p.m., May 24, 2024** otherwise Transit reserves the right to enter into a sole source contract with TSI for these services.
