

TSP & Smart Corridors Implementation Contract Authority

Intercity Transit Authority Meeting
October 16, 2024

Peter Stackpole, Development Director

Purpose

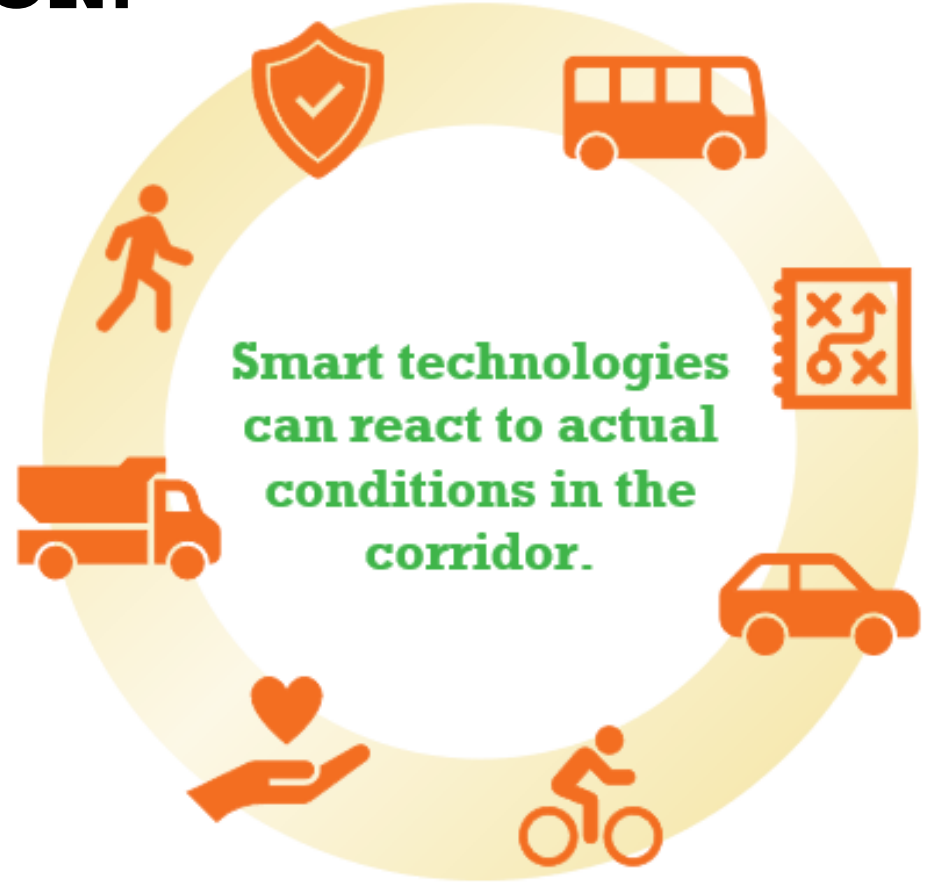

Authorize additional contract authority of \$400,000 to continue work with Iteris, Inc. to support the Smart Corridors project.

Funding

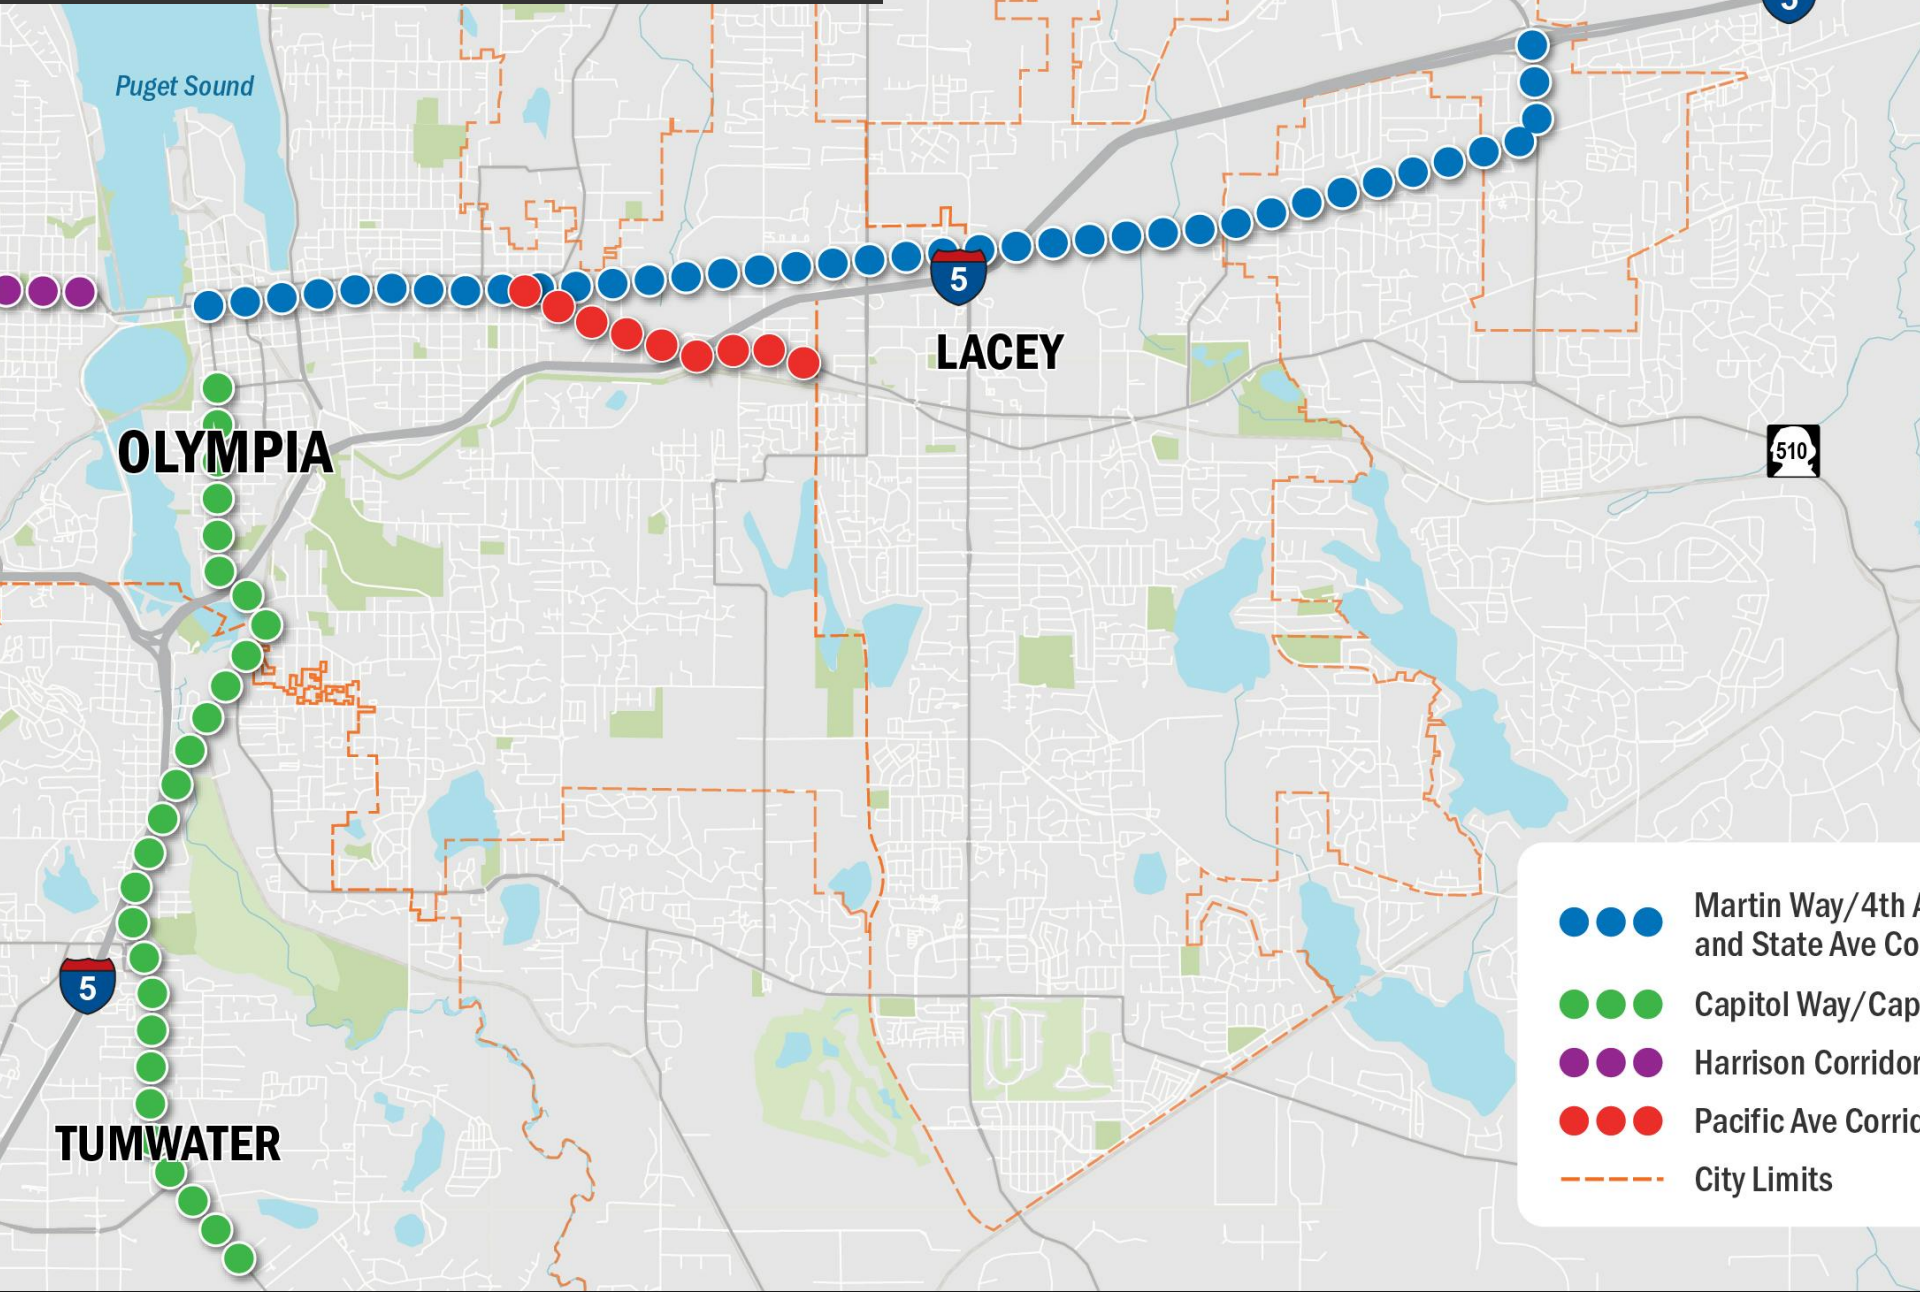

This project is included in the 2024 budget and draft 2025 budget. Project funds for Transit Signal Priority and the Smart Corridors project are allocated from grant sources as well as local funding.

WHAT IS A SMART CORRIDOR?

Use "smart" technologies to better serve roadway users, improve safety and enable better management of all modes

CORRIDORS OVERVIEW

- ● ● Martin Way/4th A and State Ave Co
- ● ● Capitol Way/Cap
- ● ● Harrison Corridor
- ● ● Pacific Ave Corric
- City Limits

PROJECT TEAM

Intercity Transit

WSDOT

City of Olympia

City of Lacey

City of Tumwater

Thurston County

Thurston Regional Planning
Council

Technical Support: Iteris,
Nelson Nygaard, Parametrix

A COLLECTION TECHNOLOGY BENEFITS

allows for objective assessment of performance and impacts.

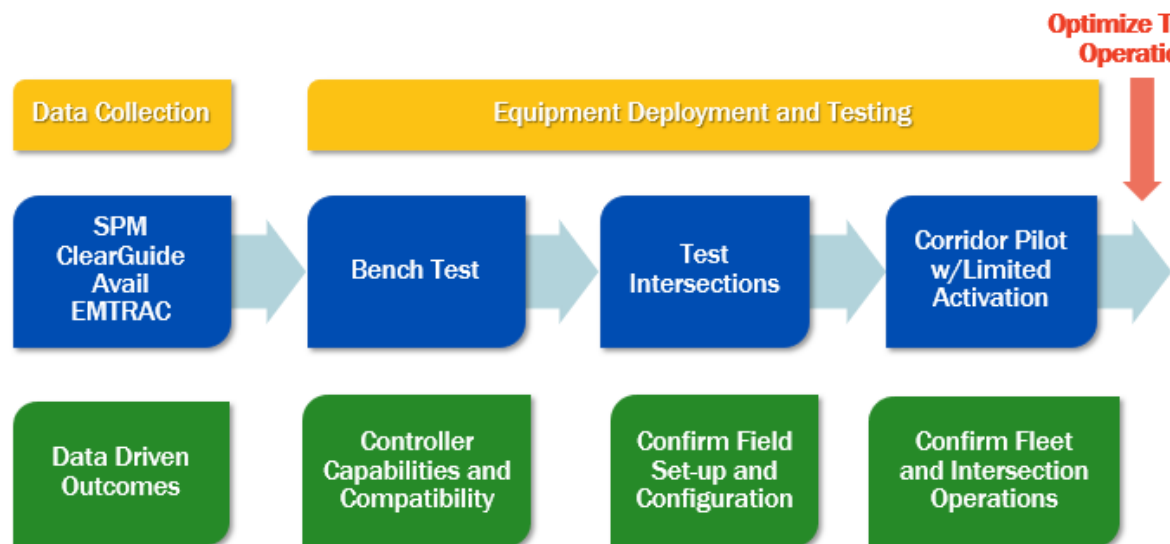

Operations can be managed to prioritize transit and service (such as priority for transit or GP traffic).

Corridor operations can be evaluated and managed to meet the corridor goals.

Interventions to individual intersections or corridors can be made to improve performance and/or reduce impacts.

Support corridor evaluation and identify what system changes may be required or needed.

Performance and changes over time can be tracked and measured.
