

## NOTICE OF INTENT TO SOLE SOURCE

**Published:** February 24, 2026

**Response Due By: 5:00p.m., March 12, 2026**

Intercity Transit (IT), a municipal corporation that provides public transportation in the Olympia, Washington, area, is seeking to acquire additional hard drives for our existing vehicle security camera system to upgrade storage capacity and have more spares available.

IT has an extensive embedded fleet of cameras and its accompanying software solution provided by Transit Solution, LLC. (TSI). The cameras and solutions have proven very successful for IT and the cameras serve at a critical capacity and are vital to our agency's safety and security. IT has also built training, guidance, a stable supply chain, and other protocols around this solution. As such, IT is maintaining its camera solution and plans to acquire more hard drives to support a growing fleet and enhancements to video storage capacity.

However, IT is conducting a good faith validation that there are no other firms capable of or interested in collectively and inclusively providing the same Nexus DVR, hardware, hardware warranty, Nexview software warranty, Nexview Pro solution, and maintaining, adding enhancing, upgrading the cameras a software solution and other services. IT reserves the right to purchase directly from TSI should no equivalent collective and inclusive solution be discovered at Transit's sole discretion.

IT is seeking a letter of interest from solution providers who offer an equivalent hard drive solution that at a minimum provides the features and functionality outlined above.

Letter of interest, along with appropriate supporting literature about the solution considered equal, is to be submitted electronically to the attention of Jeff Peterson at [jpeterson@intercitytransit.com](mailto:jpeterson@intercitytransit.com) for consideration by **5:00p.m., March 12, 2026** otherwise Transit reserves the right to enter into a sole source contract with TSI.
